SUBJECT: Valley School of Allied Health, Vocational Nursing Program – Consideration of Request to Admit Students (Director: Norma Jones, Reseda, Los Angeles County, Private)

On September 16, 2010, the Board placed Valley School of Allied Health Vocational Nursing Program on provisional accreditation¹ for the two-year period from September 16, 2010, through September 30, 2012. Further, the Board rescinded approval for the program's ongoing admissions and required the program to admit no additional students unless approved by the Board.

On September 6, 2012, the Board **extended** provisional approval of the Valley School of Allied Health Vocational Nursing Program for the two-year period from September 6, 2012 through September 30, 2014. These actions were taken due to the program's noncompliance with California Code of Regulations Section 2530 (I).

The program requests approval to admit a full-time class of 20 students on September 16, 2013, graduating October 20, 2014, to **replace** students who graduated July 15, 2013.

History of Prior Board Actions

(See attachment A, History of Prior Board Actions)

Enrollment

The program offers a full-time class that is 54 weeks in length and a part-time class that is 90 weeks in length. Prior Board approval is required for the admission of all students. The pattern of admissions for current classes is seen in the enrollment table below.

¹ Prior to January 1, 2012, references in article 4 of the Vocational Nursing Practice Act and article 4 of the Psychiatric Technicians Law provided that the Board accredits all vocational nursing and psychiatric technicians programs. Pursuant to Business and Professions Code Sections 2883 and 4532 (Senate Bill 539, Chapter 338, Statutes of 2011), **accredit** was changed to **approve**. There was no change to the Board's authority or jurisdiction.

The following table represents **current and proposed** student enrollment based on class starts and completions. The table indicates a **maximum enrollment of 59 students** for the period from **February 2011 through October 2013**.

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

Based on the most current data available (April through June 2013), the program's average annual pass rate is **59%**. The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time is 73%. The average annual pass rate for Valley School of Allied Health Vocational Nursing Program is **14** percentage points **below** the state average annual pass rate.

Faculty and Facilities

Section 2534(d) of the Vocational Nursing Rules and Regulations states:

"For supervision of clinical experience, there shall be a maximum of 15 students for each instructor."

The total number of Board-approved faculty is 18, including the program director. The director has 100% administrative duties. Two (2) faculty members are adjunct faculty and one (1) is a teacher assistant. Of the total faculty, eleven (11) are approved to teach in the clinical area.

For a maximum enrollment of 59 students, four (4) instructors are needed for clinical instruction. Therefore, the number of current faculty is adequate for the current and proposed enrollment.

Section 2534 (b) of the Vocational Nursing Rules and Regulations states:

"Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught."

The program has clinical facilities that are adequate as to type and variety of patients treated to enable current and proposed students to meet clinical objectives, in accordance with Section 2534 (b) of the Vocational Nursing Rules and Regulations. This information has been verified by the consultant.

Other Considerations

On September 16, 2010, the Board placed the program on provisional approval for a two (2) year period from September 16, 2010, through September 30, 2012. At that time, the program's average annual pass rate was 49%. Further, the program's average annual pass rates had been more than ten (10) percentage points below state average annual pass rates for eight (8) consecutive quarters.

On September 6, 2012, the Board **extended** provisional approval of Valley School of Allied Health Vocational Nursing Program for the two-year period from September 6, 2012 through September 30, 2014. At that time, the program's average annual pass rate was 61%, an improvement of 12 percentage points since placement on provisional approval. On September 19, 2012, the Board forwarded to the Director the Notice of Change of Approval Status (see Attachment B).

On June 10, 2013, the Board received the program's comprehensive analysis from the program director and two (2) copies and a CD of pertinent documents and subsequent actions taken to correct identified problems that they desired the Board members to consider. The following elements were identified (see Attachment C):

➤ **Admission and Screening and Selection Criteria.**

Remain unchanged since June 29, 2011, when they were revised to increase student success.

➤ **Terminal, Theory, Clinical and Curriculum, Objectives.**

Remain unchanged. However, the faculty is reviewing these and the conceptual framework in order to determine if change is needed.

➤ **Instructional Plan.**

Remains unchanged. No problems found.

➤ **Lesson Plans.**

Currently being reviewed and updated.

➤ **Textbooks.**

Texts for terms 1 & 2 were changed to Textbook of Basic Nursing.

➤ **Attendance Policy.**

Changed on June 29, 2011. No problems identified since then.

➤ **Remediation Policy.**

Remains unchanged.

➤ **Evaluations.**

Correlation of theory to clinical was evaluated and improvements made and submitted on June 27, 2012.

➤ **Student Achievement.**

Evaluated every term and as needed.

➤ **Current Enrollment.**

Currently three (3) classes are in session for a total of 52 students.

➤ **Review Course.**

Mandatory nine (9) week review course is being offered after graduation. Graduates' applications for licensure are submitted after they have attended one (1) week of the review course.

➤ **Pre-requisite Course.**

Established in the event of future classes.

➤ **Student Centered Learning.**

Students present designated topics assigned by the instructor. The instructor facilitates these presentations. This occurs in Terms 3 & 4 only.

Recommendations:

1. Deny Valley School of Allied Health Vocational Nursing Program's request to admit a full-time class of 20 students on September 16, 2013, only, graduating October 20, 2014, to **replace** students who graduated July 15, 2012.
2. Require the program to obtain approval by the Full Board prior to the admission of future classes.

Rationale: On September 16, 2010, the Board placed the program on provisional approval for a two (2) year period from September 16, 2010, through September 30, 2012. At that time, the program's average annual pass rate **was 49%**. On September 6, 2012, the Board **extended** provisional approval of Valley School of Allied Health Vocational Nursing Program for an additional two-year period from September 6, 2012 through September 30, 2014. At that time, the program's average annual pass rate was 61%, an improvement of 12 percentage points since placement on provisional approval.

Twelve (12) quarters (3 years) of licensure data are available since the program was originally placed on Provisional Approval. Three (3) of the 12 quarters were within ten (10) percentage points of state average annual pass rates, Quarter four (4) of 2011, Quarter one (1) of 2012 and Quarter 1 2013.

The current quarter pass rate is **22%** and the average annual pass rate is **59%**. It is concerning that of the nine (9) graduates that tested during the most recent quarter, seven (7) of the nine (9) are 2012 graduates. Of the nine (9) 2012 graduates that tested during this quarter, two (2) passed and seven (7) failed. Based on this data, denial of the requested class is recommended.

Seventeen (17) students are currently enrolled in classes. Two (2) classes graduated in 2013. One (1) class in May and one (1) class in July. Each of these classes graduated eleven (11) students. It is expected these graduates will test in Quarters three (3) and four (4) of 2013.

Subject: Board Meeting Follow – Up

Dear Ms. Jones:

The Board of Vocational Nursing and Psychiatric Technicians (Board) considered the consultant's report relative to **Valley School of Allied Health Vocational Nursing Program – Reconsideration of Provisional Approval; Consideration of Request to Admit Students**, at its September 6, 2012 meeting.

Decisions rendered by the Board included, but were not limited to, the following:

1. Approve the program's request to admit a full-time class of 20 students on September 10, 2012, only, graduating October 20, 2013, to **replace** students who will graduate September 7, 2012.
2. Require the program to obtain approval by the Board prior to the admission of future classes.

Rationale: The program's average annual pass rate is **61%** and the most recent quarter pass rate is **40%**. The average annual pass rate represents a **decrease** of eleven (11) percentage points from Quarter 4 2011 and a decrease of four (4) percentage points from Quarter 1 2012.

The director verbalized that many changes have been implemented and she feels the most significant problem relates to students failing to take the licensure examination quickly upon completion of the program. Students, who recently graduated, attended a newly developed NCLEX review course. The director is optimistic that these graduates will do well on the licensure examination.

Extending the provisional approval for two (2) years will allow the director to continue to implement and evaluate the changes reported. Additionally, eight (8) more quarters of licensure data will be available

to assess the effects of the reported changes and their impact on graduate's performance.

The program has demonstrated possession of sufficient resources for the proposed student population. Board staff will continue to monitor the program by tracking its licensure examination pass rate quarterly, reviewing Annual Reports submitted by the program, and performing accreditation surveys every four years.

The *Notice of Provisional Approval* is enclosed. This document identifies specific areas of noncompliance and required corrections. It is recommended that you review this document in its entirety. Additionally, the program's *Certificate of Provisional Approval* is enclosed. These documents should be retained in your official files. The attached Acknowledgement Form should be completed and returned by **Friday, September 28, 2012.**

Please contact the Board should further clarification be needed.

Sincerely,

Student – Centered Learning

In Term 3 and Term 4 we are using Student – Centered Learning in a modified form. The instructor assigns individuals or groups a certain presentation of the lecture for the day. The instructor becomes the facilitator and resource person. This type of learning places more responsibility on the student who becomes more active and less passive. The students may use power-point presentation, role-playing, question-answer, class discussion, etc. in the presentation.

The students have complained about the amount of time and effort involved in preparation but they also see the advantages and they find they have more of a desire for learning.

Each class will be evaluated at the end of the term and also, students will evaluate their thoughts, feelings and the learning process.
