Subject: Casa Loma College, Van Nuys, Vocational Nursing Program. Consideration of Extension of Provisional Approval (Director: Stephanie Ayo-Akinyemil, Van Nuys, Los Angeles County - Private)

The Board initially placed the program on provisional approval for the three (3) month period from May 13, 2016 through August 31, 2016, due to noncompliance with requirements specified in the California Code of Regulations relative to the NCLEX PN Pass rates.

On August 31, 2016, the Board extended the program's provisional approval for the three (3) additional months, for a period from August 31, 2016 through November 4, 2016. At this time the Director set up an appointment with the NEC to work on issues with the program.

On October 31, 2016, the Board extended the program's provisional approval for one year – period from November 4, 2016 through November 30, 2017;

The Casa Loma College, Van Nuys, Vocational Nursing Program has requested an extension of their provisional approval. Extension of provisional approval is **not** recommended.

History of Prior Board Actions

(See Attachment A, History of Prior Board Actions)

Enrollment

The program offers a 12-month full – time course of instruction. Effective February 17, 2016, the Board rescinded approval of the program's ongoing admissions and required the program to obtain Full Board approval prior to admitting students. The pattern of admissions for current and proposed classes is seen in the enrollment table below.

The following table represents **current and projected** student enrollment based on current and projected class starts and completions. The table indicates a **maximum enrollment of 13 students** for the period **January 2017 through January 2018**.

Licensing Examination Statistics

The following statistics, furnished by Pearson VUE, and published by the National Council of State Boards of Nursing as "Jurisdictional Summary of All First-Time Candidates Educated in Member Board Jurisdiction," for the period January 2015 through September 2017, specify the pass percentage rates for graduates of Casa Loma College, Van Nuys, Vocational Nursing Program on the National Council Licensure Examination for Practical/Vocational Nurses (NCLEX-PN®) and the variance from state average annual pass rates.

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

California Code of Regulations section 2530(I) states:

“The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.”

Based on the most recent data available (July through September 2017), the program’s average annual pass rate is **49%**. The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time during the same period is **71%**. The pass rate for the Casa Loma College, Van Nuys, Vocational Nursing Program is **22** percentage points **below** the state average annual pass rate. The program’s average annual pass rate has been greater than ten (10) percentage points **below** the state average annual pass rate for the **past eleven (11) consecutive quarters**.

Faculty and Facilities

Section 2534(d) of the Vocational Nursing Rules and Regulations states:

“For supervision of clinical experience, there shall be a maximum of 15 students for each instructor.”

Based on the Board’s October 2016 decision, however, the program is required to provide no less than **one (1)** instructor for every **ten (10)** students in clinical classes.

The current number of Board-approved faculty totals **fourteen (14)**, including the director. The program director reports approximately 80% administrative responsibility. The program has **nine (9)** instructors designated for clinical instruction.

Based on a maximum enrollment of **13** students, **two (2)** instructors are needed. Therefore, the total number of faculty is **adequate** for the current and proposed enrollment.

Section 2534(b) of the Vocational Nursing Rules and Regulations states, in part:

"Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught."

The program has **adequate** clinical facilities to afford the number, type, and variety of patients that will provide clinical experience consistent with competency based objective and theory being taught to enable the current and proposed students to meet clinical objectives, in accordance with Section 2534 (b) of the Vocational Nursing Rules and Regulations.

Other Considerations

The Board initially placed the program on provisional approval for the three (3) month period from May 13, 2016 through August 31, 2016, due to noncompliance with requirements specified in the California Code of Regulations. Specifically, 12 violations were identified during an unannounced program inspection conducted by two (2) Board representatives on February 3 and 4, 2016. In examination and analysis of the program's response to the violations, two (2) additional violations, including misrepresentation of a material fact, were identified.

On May 17, 2016, the Board approved a new program director.

On August 2, 2016, the Board approved to extend the provisional approval of the Casa Loma College, Van Nuys, Vocational Nursing Program from September 1, 2016 through November 30, 2016. A meeting with the director was set up later in August 2016.

On October 16, 2016, the Board extended the program's provisional approval for a one-year period from November 4, 2016, through November 30, 2017; and approved the programs request to admit one (1) class of thirty students beginning January 30, 2017, and graduating January 30, 2018, **only**. The school was given an opportunity to implement their submitted plan for improvement of the program's NCLEX-PN® pass rate.

Of the fourteen previous violations that required corrections, only two (2) are not corrected. The corrections that remain outstanding include:

Section 2526(a)(8) of the Vocational Nursing Rules and Regulations states:

"The institution shall apply to the Board for approval. Written documentation shall be prepared by the director and shall include:
... (8) Evaluation methodology for curriculum."

Violation #1: On July 15, 2016, the Board received the program's proposed methodology and timeline for evaluation of the curriculum for three (3) months. Based on what was submitted to the Board, the timeline and methodology are inadequate. There is no evidence of that the program would continue to evaluate the curriculum consistently.

The Board relies on faculty meeting minutes, and other documentation to determine that follow-through is completed to indicate outcomes. A master timeline for the evaluation plan was submitted on September 22, 2016. No faculty meeting minutes, and/or other documentation was submitted to demonstrate that ongoing evaluation of the curriculum would occur. As of the writing of this report no additional documents have been submitted to correct the violation.

Status #1: This violation is **not** corrected.

Section 2530(l) of the Vocational Nursing Rules and Regulations states:

"The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period."

Violation #2: Since June 2016 when this program was placed on provisional approval, the program has had eleven (11) quarters of average annual pass rate **below** 10 percentage points of the state average annual pass rate for first time candidates of approved vocational nursing schools for the same period.

Status # 2: This violation is **not** corrected.

Recommendations:

1. Revoke the provisional approval of the Casa Loma, Van Nuys, Vocational Nursing Program, effective January 31, 2018.
2. Remove the program from the Board's list of *Approved Vocational Nursing Schools*.

Rationale: The program's current average annual pass rate is 49%, which is 22 percentage points **below** the state average annual pass rate. The program has been greater than 10 percentage points **below** the state average annual pass rate for the past **eleven (11) consecutive quarters**. The program has failed to demonstrate incremental progress in correcting its deficiencies.

Currently, there are thirteen (13) students who are enrolled in this program; all thirteen (13) students are scheduled to be graduated at before the recommended date of revocation.
