SUBJECT	Reconsideration of Provisional Approval
PROGRAM	Quest Nursing Education Center Vocational Nursing Program (Program) (Program Director: Stacey Mbanugo Eletu, Oakland, Alameda County, Private)

Please note: Board Nursing Education Consultants make recommendations. The recommendations are forwarded to the Education and Practice Committee for review and recommendation or to the Executive Officer or full Board for action.

PROGRAM REQUEST:

Reconsideration of provisional approval.

BACKGROUND:

On February 12, 2026, the assigned NEC completed an onsite program inspection. It was identified that over the last year the program has:

1. Corrected all of the identified violations
2. Followed all of their approved policies
3. Established adequate staffing and clinical resources
4. Ensured the average annual pass rate has remained compliant
5. Moved the campus to a safer location.
6. The students and faculty stating that they are happy and feel supported by the Program Director.

On April 12, 2026, the Program moved to a new location from 917 Harrison Street, Oakland CA 94607 to 1680 Stoneridge Mall Road, Pleasanton CA 94588. The new campus is located in an area that offers students free, safe, and adequate lighted parking. The new campus has all the required resources.

On April 28, 2026, due to the cancellation of the May BVNPT Board meeting the Executive Officer approved two classes of students requested to start in July, 2026.

STAFF ANALYSIS:

The NEC reviewed and analyzed the documents provided by the Program Director and completed an onsite visit to verify adequate resources including clinical facilities and classrooms to accommodate the students' learning needs and ability to meet the Program's approved objectives. The Program has corrected all previously identified violations.

Due to the correction of all violations and employed interventions the Program's NCLEX-PN® pass rates have remained compliant for the last eight quarters.

Board staff will continue to monitor the Program by tracking its licensure examination pass rate each quarter, the number of graduates taking the licensure examination, reviewing Annual Reports, and conducting Continuing Approval Reviews.

STAFF RECOMMENDATIONS:

1. Approve the Program's request to be removed from Provisional Approval and be returned to continued full approval and issue a certificate accordingly.
2. Require the Program to comply with all requirements listed below.

PROGRAM REQUIREMENTS:

1. Admit no additional classes without prior approval by the Board.
2. Require the Program, when requesting approval to admit students, to:
 - a. Submit all documentation in final form, using the forms provided by the BVNPT, no later than two months prior to the requested start date for the class.
 - b. Provide documentation that adequate resources, i.e., faculty and facilities, are available to support each admitted class of students.
 - c. Ensure that the Program maintains an average annual pass rate that is compliant with the California Code of Regulations, Title 16, Section 2530(l).
3. Continue to provide a maximum of ten students for each instructor. The California Code of Regulations, Title 16, Section 2534(d) states: "for supervision of clinical experience, there shall be a maximum of 15 students for each instructor." Recommendation of one instructor for a maximum of ten students in clinical experiences will enable more focused instruction and enhanced learning to closely monitor and evaluate the clinical performance of students.
4. Notify the NEC in the event a current class is displaced from clinical sites.
5. Continue the Program's requirement to comply with all of the approval standards in Article 4 of the Vocational Nursing Practice Act, commencing with California Business and Professions Code, Section 2880, and in Article 5 of the California Code of Regulations, Title 16, commencing with Section 2525.

6. Continue the Program's requirement to demonstrate incremental progress in NCLEC-PN® licensure examination pass rate. If the Program fails to satisfactorily demonstrate incremental progress, the full Board may revoke the Program's approval.
7. Failure to take any of these corrective actions may cause the Board to revoke the Program's approval, as specified in California Code of Regulations, Title 16, Section 2526.1(f).
8. Any material changes in circumstances affecting any information contained in the documents submitted by the Program to the Board require the Program to notify the NEC immediately, in writing, per California Code of Regulations, Title 16, Section 2526(g).

Continuing Approval Survey

In accordance with Section 2883 of the California Business and Professions Code, it is the Board's duty, through an official representative, to inspect or review all schools of vocational nursing in California. Written reports of the representatives' visit, or inspection, shall be made to the Board. Such inspections determine Program compliance with Article 5 of the California Code of Regulations, Title 16.

The Quest Nursing Education Center Vocational Nursing Program was reviewed to determine compliance with Article 5 of the California Code of Regulations, Title 16. The findings are seen within the table below. No violations were identified.

RELEVANT PROGRAM ELEMENTS

Enrollment

California Code of Regulations, Title 16, Section 2530(k) states:

The program shall have prior Board approval to increase the number of students per class and/or increase the frequency of admission of classes. Criteria to evaluate a school's request to increase the number of students per class and/or increase the frequency of class admissions include but are not limited to: (1) Sufficient program resources as specified in Section 2530(a). (2) Adequacy of clinical experience as specified in Section 2534. (3) Licensure examination pass rates as specified in Section 2530(l).

The Program is approved to offer a 66-week part-time class and a 53-week full-time class. BVNPT approval is required prior to the admission of each class.

The following table represents current student enrollment based on current class starts and completion dates. The table indicates a maximum enrollment of 73 students for the period June 2025 through July 2026.

ENROLLMENT DATA TABLE

Licensing Examination Statistics

California Code of Regulations, Title 16, Section 2530(l) states:

The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.

The following statistics, furnished by Pearson Vue and published by the National Council of State Boards of Nursing as “Jurisdictional Summary of All First-Time Candidates Educated in Member Board Jurisdiction,” for the period July 2024 through June 2026, specify the pass percentage rate for graduates of the Program on the National Council Licensure Examination for Practical/Vocational Nurses (NCLEX-PN®) and the variance from the state average annual pass rates.

NCLEX-PN® LICENSURE EXAMINATION DATA

Quarterly Statistics					Annual Statistics		
Quarter	# Candidates in Quarter	# Passed in Quarter	% Passed in Quarter	State Quarterly Pass Rate	Program Average Annual Pass Rate	State Average Annual Pass Rate CCR §2530(l)	Variance from State Average Annual Pass Rate
Jul - Sep 2024	14	11	79%	83%	87%	85%	+2

Apr - Jun 2026	11	10	91%	83%	78%	81%	-3

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

Based on the most current data available (April-June 2026), the Program’s average annual pass rate is 78 percent. The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time during the same period is 81 percent. The average annual pass rate for the Program is three percentage points below the state average annual pass rate.

Faculty and Facilities

California Code of Regulations, Title 16, Section 2534(d) states:

For supervision of clinical experience, there shall be a maximum of 15 students for each instructor.

The current number of approved faculty totals 10, including the Program Director. The Program Director has 60 percent administrative and 40 percent teaching duties. Of the total faculty, 10 are designated to teach clinical. Currently, the Program is required to have a maximum of ten students to one instructor. Based upon a maximum proposed enrollment of 73 students, eight instructors are required for clinical supervision. The utilization of faculty at clinical facilities is such that clinical instruction is covered adequately.

California Code of Regulations, Title 16, Section 2534(b) states:

Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught.

Submitted documentation indicates the Program has sufficient clinical facilities to afford the number, type and variety of patients that will provide clinical experience consistent with Board-approved competency-based objectives and theory being taught for current and proposed student enrollment.

Program Inspection

On February 12, 2026, the assigned NEC completed an announced program inspection of Quest Nursing Education Center Vocational Nursing Program. It was identified that the program was following all of the approved policies, all previously identified violations have been corrected, and no further violations were identified. The Program is located in downtown Oakland, in China Town. There are a minimum of parking spaces and students must pay for parking by the hour.

On April 12, 2026, due to the location and the parking costs, the Program moved 25 miles south to Pleasanton, where the Program can provide safer parking and less traffic for students, and a larger space to include classrooms and skills labs to meet the students educational needs.

Interview with Faculty

An interview was conducted with two faculty. The instructors had been teaching in the Program from two to three years. The instructors were happy with the Program and felt that they had support from the Program Director. The faculty members denied any concerns stating they work well as a team and were supportive of each other to ensure best practices in teaching were implemented. The things they liked best about the Program is that the Program Director listens when they offer suggestions, and when students understand the topics being discussed. The instructors knew where the instructional plan was housed and presented lesson plans based on the instructional plan. The faculty were able to verbalize the attendance policy and process for make-up hours. In addition, they explained the remediation policy and process.

Interview with Students

The interview consisted of 13 term-four students. All students agreed they would recommend the Program to family members or friends. Students stated the best part of the Program is that the theory portion of the program is on-line which saves a lot of time driving due to the heavy Bay Area traffic. The skills lab hours are conducted on campus in small groups. Students stated clinical hours are completed at direct-patient care settings. According to the students, clinical make-up hours are completed prior to the end of the term at a clinical facility.
